TCI ERP

TCI ERP user guide

Quick start: Client

Version 0.1.0

02.11.2026

The policyholder portal

The portal is your access to your trade credit insurance: policies and their terms, credit limits on your buyers, turnover declarations, premium, overdue notifications, claims, submissions, offers and contracts.

You see your own company's data only.

Signing in to the portal and your profile

When to use it

The first sign-in and changing your password.

Steps

1. Sign in with the email and the temporary password your insurer gave you.
2. Choose your own password (at least 12 characters) — the portal does not open without it.
3. Under **Account** you change your password, connect a second factor and set up the display.

Result

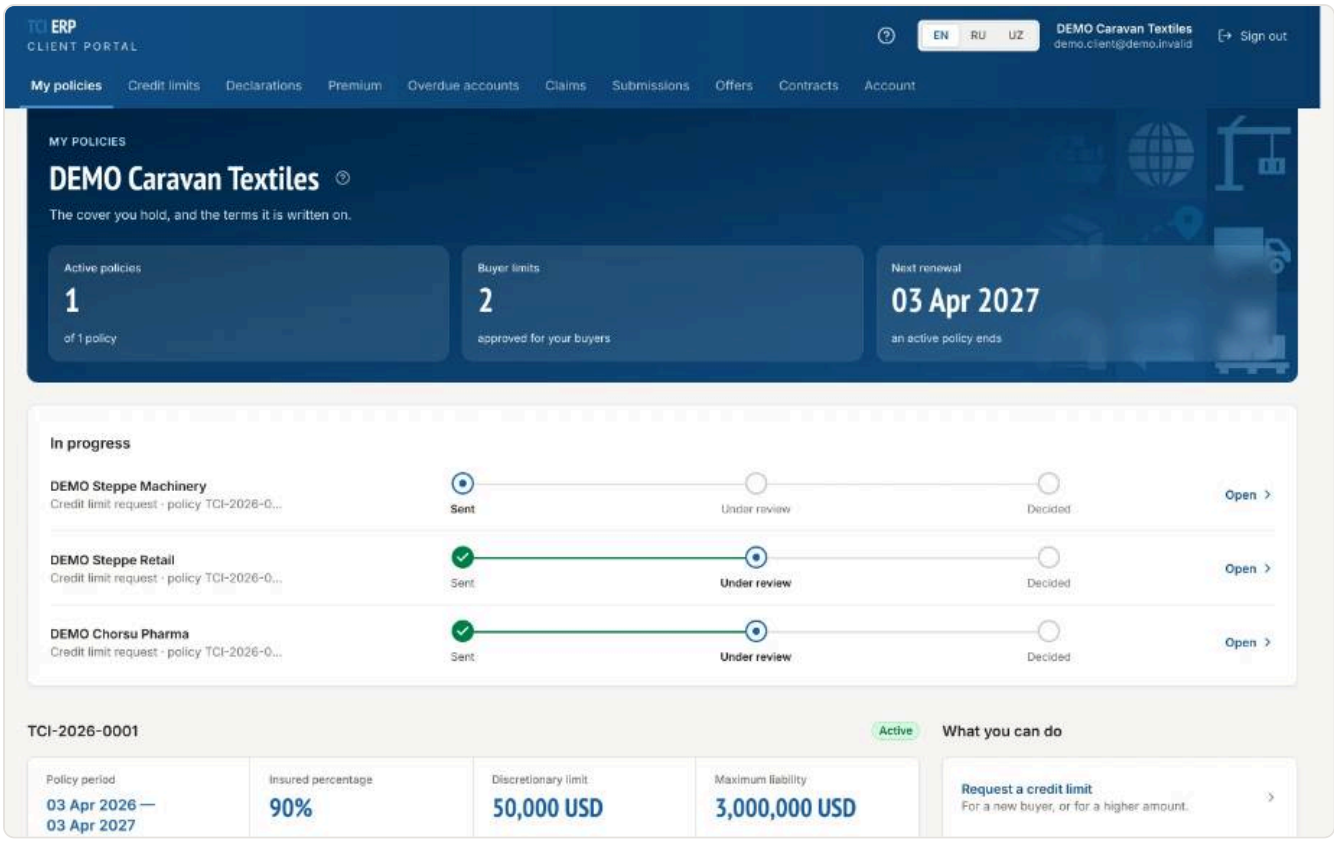

My policies opens.

Common mistakes

- **Forgot your password.** Contact your manager at the insurer: you will be given a temporary password.

My policies and credit limits

My policies: your policies, their status, period and terms — the insured percentage, the non-qualifying loss threshold, deductibles, the maximum payment terms, the discretionary limit.

Credit limits: the limits on your buyers — amount, payment terms, conditions, validity, and the history of earlier limits. A new decision appears here once the insurer has finished with it; a reduction or revocation at once.

Until a buyer has a limit, sales to them are covered only up to the policy's discretionary limit.
